

CUSTOMER DESIGNED BOOK

Family & Friends- Ordering Instructions

PLEASE PRINT THESE INSTRUCTIONS FOR EASY REFERENCE WHILE IN THE SITE!

We are very happy to be one of only a few wedding studios across the country to offer on-line ordering of Photo Books which are completely designed on-line by YOU!

It's easy, fun and fast to create your own book using customer-friendly on-line web site tools and page templates. The designing possibilities, book choices and corrections are more limited than books designed by us but the finished product is very, very good. Remember, the books still use our professional quality images.

And best of all, you will love the pricing! It's SURPRISINGLY LOW!

If the Bride & Groom's package included a Parent Companion Book, **STOP!** Do not proceed because Parent Companion Books are identical book designs to the one designed by the Bride and Groom with exactly the same images as the Bride & Groom with exactly the same design layout as the Bride & Groom. There is nothing for you to do except wait for it to be delivered.

However, if you want to design your own inexpensive but professionally made book, then proceed.

If you are the Bride & Groom and HAVE NOT PURCHASED a book as part of your wedding package, here is your chance to still have a great quality book at LOW, LOW prices.

If you are the Bride and Groom and HAVE PURCHASED a book as part of your package, STOP! Do not proceed!

Important Information

This gallery will only be available for about 90 days from the date of the wedding. Therefore, if you decide to design and purchase a book, do it **NOW** before this gallery is automatically erased! A pop-up window at the bottom of the site reminds you of the gallery deadline.

One of the reasons that our pricing is so low is because you do all of the work, the studio is not involved at all. That saves you hundreds of dollars.

The concept of on-line book ordering is based on filling the number of pages purchased. The exact number of images included with a specific number of pages varies based on how images you use per page, depending on the available templates. Although you may have some pages utilizing only one image and other pages containing more than one image, as a rule of thumb, books are usually designed with about an average of 2 images per page. Also add an image for the front and back cover. For example, a 20 page book will hold about 22 to about 40 images on an average.

No additional image corrections, enhancements or retouching will be done to the images ordered for a book beyond what you see on your screen. **WHAT-YOU-SEE IS WHAT-YOU-GET!**

In regards to the positioning and cropping of images included in the book, **WHAT-YOU SEE IS WHAT-YOU-GET!** No changes at all will be made to the design you see on the screen.

If an image is not positioned as well as it might or not cropped as well as it might, the site will not make any changes! Before placing your order, make sure your books EXACTLY as you want! **WHAT-YOU-SEE IS WHAT-YOU-GET!**

Five Easy Ordering Steps

STEP #1: Save all of your favorite images into the FAVORITES FOLDER. These are the images you will use in your book.

STEP #2: While in the FAVORITES FOLDER, sequence the images in the order you wish them to appear in the book by "dragging-and-dropping" them into place.

STEP #3: Click on "Create A Book" at the top of the FAVORITES page to select the size and style of book you want.

STEP #4:

- When the book designing window opens, the site will automatically fill the pages with your images in the sequence which you saved them.
- If you wish to change images on a particular page, click on CHANGE PHOTOS. A window will open on the right to allow you to drag a different image on that page.
- If you wish to change page layout templates, click on CHANGE DESIGN to view all available templates. Drag and drop a different template into the designing window.
- To change the paper type or increase the number of pages, click on CHANGE OPTIONS.
- Be aware of the page thumbnails that appear at the bottom of the designing window. The thumbnail on the far left represents the front and back covers of the book. You will notice that you may be able to save images on both covers and also change the cover text.
- To change size or position of individual images, click on that image and a TOOL WINDOW will open, allowing for image adjustments. Not all images can be properly displayed in all page template openings. If you can't position an image the way you want, either change images or change page templates.
- If you need to grab images that were not previously saved in your FAVORITES FOLDER or you want to finish your designing on a future visit to the site, click on SAVE TO CART, to save the book design as-is. Do not navigate away from the book design without first saving it to the cart.
- To return to the book design, click on CART which appears in the upper right corner of the screen. Click on VIEW CART. Click on EDIT which appears in blue after the description of the book being purchased.

STEP #5: When your design is complete, click on all page thumbnails to make sure the design looks EXACTLY as you want. Then click ADD TO CART, check out and pay. That's it!
